I, Tonya (15) 120mins

Dir: Craig Gillespie | 2017

Margot Robbie stars as Tonya Harding in this biopic of the controversial Champion Figure Skater whose legacy was defined by an attack on a fellow competitor. This dark comedy shows what happens when you are determined to win at any cost and has an incredible soundtrack of 20th Century hits.

Lady Bird (15) 94mins

Dir: Greta Gerwig | 2017

Greta Gerwig's film based on her own upbringing in Sacramento is a funny and moving, coming of age film for our times. Christine "Lady Bird" McPherson has a turbulent relationship with her mother but has the same traits herself. We follow "Lady Birds" relationships, passions and life experiences in this feature about beauty of a place called home.

Paterson (15) 115mins

Dir: Jim Jarmusch | 2016

To celebrate World Poetry Day we are screening this charming Jim Jarmusch classic. Paterson is a hardworking bus driver, who follows the same routine every day. He picks up fragments of conversations while picking up his passengers and writing poems about these everyday observations in his trusty notebook. This is a beautifully fitting film to celebrate the written word.

My Feral Heart (12A) 83mins

Dir: Jane Gull | 2016

Luke, an independent young man with Down's syndrome, is forced to live in a care home after his elderly mother dies. He struggles to settle and is unimpressed by his new house mates. His disappointment with his new home turns to wonder when Luke discovers a way out and begins to explore the surrounding countryside.
